The Pharmacy in the Apiary

- *Honey jellies*
- *Honey lollipops*
- *Honey with sea buckthorn*
- *Honey with nuts*
- *Honey with ginger and lemon*
- *Honey ointment*

Paradis International College
Iași, Romania

Welcome to the **Pharmacy in the Apiary!**
Here you will not find pills from the pharmacy, but natural remedies gifted by bees and plants. We offer honey, wax, and many other delicacies that promote good health. We have prepared jellies, lollipops, jars containing delicious combinations, and even a healing ointment. We invite you to discover together the benefits they bring.

HONEY JELLIES

Ingredients: honey, propolis tincture, lemon, gelatin. Honey is a natural food that gives you quick energy, being full of healthy sugars. It also contains vitamins and enzymes that help the body defend itself against germs. In jellies, honey becomes not only a delicious snack, but also a sweet little remedy.

HONEY LOLLIPOPS

Ingredients: honey, sugar. When you have a sore throat or a cough, honey helps soothe the pain and reduce inflammation. In lollipops, it stays in your mouth longer and helps moisturize your throat. Plus, it's a healthy alternative to commercial candies, which are mostly just sugar.

HONEY WITH SEA BUCKTHORN

Ingredients: honey, sea buckthorn. Sea buckthorn is nicknamed "Romanian ginseng" because it is very rich in vitamin C - even more so than lemons. Mixed with honey, it becomes a real shield for your immunity. It helps you get over colds more easily and gives you energy when you are tired.

HONEY WITH NUTS

Ingredients: honey, nuts. Nuts are good for the brain, heart, and bones because they contain minerals, vitamins, and healthy fats. Together with honey, which nourishes and provides energy, they form a natural and very nutritious dessert. It's like a sweet snack, but also very healthy.

HONEY WITH GINGER AND LEMON

Ingredients: honey, ginger, lemon. This combination is like a natural syrup for colds. Ginger warms and stimulates circulation, lemon provides vitamin C to boost immunity, and honey soothes the throat and adds sweetness. Together, they are an excellent remedy when you feel a cold coming on.

HONEY OINTMENT FOR DRY SKIN

*Ingredients: honey, wax, olive oil,
lavender/lemon balm essential oil.*

The ointment is a natural skin balm. Honey speeds up healing, wax forms a protective layer, olive oil nourishes and softens the skin, and lavender and lemon balm have a calming and relaxing effect. It can be used for dry hands, scratches, or even minor burns.

The students are enthusiastically preparing delicious products for the apiary pharmacy

Bee products are carefully arranged at the apiary pharmacy

Team creativity: our students bring color to the beehives at Tansa

THE TANSA APIARY

The Tansa Apiary is a place of experiential learning and also serves a social purpose. The honey and all the bee products made here are not only for the children of Paradis, but are also available for sale. The money raised will be donated to charitable causes to support children facing difficulties or social problems.

A buzz of excitement in protective gear! The young beekeepers are ready to discover the secrets of the apiary

The beehives were painted by Paradis students as part of the “Nikola Tesla” Creative Science Fair

An Ideal Habitat For Bees

***The Tansa Educational Apiary** is located in a clean, unpolluted environment, offering excellent conditions for the development of bee colonies. The area boasts rich biodiversity, surrounded by an acacia forest, pine and linden plantations, fruit orchards, as well as fields of lavender, roses, and carpets of dandelions. This variety of plants ensures a steady harvest throughout the season and guarantees the quality and diversity of the honey goods produced. Visits to the apiary help students develop practical skills, observational skills, and respect for the environment. They have the opportunity to directly observe the bees' perfect social organization, the pollination process, and the biology of the surrounding plants.*
